

## Enstar (EU) Limited

Enstar (EU) Limited specialises in acquiring and managing insurance and reinsurance businesses in run-off for European clients and also for overseas companies with European-based insurance issues and liabilities. We always take a strategic view, looking at each business as a whole, bringing many years of European market experience to bear.

### Our key objectives & strategy

We aim to be a strategic partner to our clients, working as one team to ease funding and balance sheet pressures, and allowing clients to focus on what they do best- running their core businesses.

We work closely with our fellow Enstar companies both in Europe and globally to deliver global solutions for our clients.

### Our services

Every client is different, of course, but our experience shows that there are two major drivers to what our clients need. We deliver either finality solutions to our clients to enable them to identify, quantify and rapidly release capital, or we provide ongoing management solutions through the provision of consultancy services and management engagements.

We provide a full range of consultancy services, ranging from full-service run-off management to bespoke solutions such as claims inspection, claims validation and settlement, reinsurance asset collection and IT consulting services for both the corporate and Lloyd's markets.

### Our track record

Initially formed in 1996 we now have offices in London and Guildford in the UK as well as in Sweden, Denmark, Switzerland and Belgium, employing over 200 people. These businesses are growing strongly.

Our run-off professionals have a wealth of experience and industry contacts and have been actively involved over the years with all of the major global market and claims issues that have been experienced by the insurance industry across all lines and markets.

We have extensive experience of discontinued underwriting years, dating back to the 1950's through all subsequent underwriting cycles, both in the global corporate and Lloyd's markets. As we have grown, we have developed significant in-house expertise spanning all the major insurance disciplines covering financial, actuarial, legal and technical matters.

> Enstar Group Limited brings global expertise to identifying, quantifying and rapidly releasing capital.

### Key facts
