NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2010 and December 31, 2009
(Tabular information expressed in thousands of U.S. dollars except share and per share data)
(unaudited)

1. BASIS OF PREPARATION AND CONSOLIDATION

The Company's condensed consolidated financial statements have not been audited. These statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, these financial statements reflect all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the Company's financial position and results of operations as at the end of and for the periods presented. Results of operations for subsidiaries acquired are included from the dates of their acquisition by the Company. The results of operations for any interim period are not necessarily indicative of the results for a full year. All significant inter-company accounts and transactions have been eliminated. In these notes, the terms "we," "us," "our," or "the Company" refer to Enstar Group Limited and its direct and indirect subsidiaries. The following information should be read in conjunction with the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

Adoption of New Accounting Standards

In January 2010, the Company adopted the revised guidance issued by the U.S. Financial Accounting Standards Board ("FASB") for the consolidation of variable interest entities. The revised guidance requires an entity to perform an analysis to determine whether the entity's variable interest or interests give it a controlling financial interest in a variable interest entity. It prescribes the determination of whether a reporting entity is required to consolidate another entity based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. The adoption of the revised guidance did not have any impact on the consolidated financial statements.

The Company adopted the revised guidance issued by FASB for the accounting for transfers of financial assets in January 2010. The revised guidance eliminates the concept of a "qualifying special-purpose entity"; changes the requirements for derecognizing financial assets; and enhances information reported to financial statement users by increasing the transparency of disclosures about transfers of financial assets and an entity's continuing involvement with transferred financial assets. The adoption of the revised guidance did not have any impact on the consolidated financial statements.

Also in January 2010, the Company adopted the revised guidance issued by FASB for the disclosures about fair value measurements. The revised guidance requires additional disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. The revised guidance also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. The revised guidance is effective for the first reporting period (including interim periods) beginning after December 15, 2009, except for the requirement to provide the Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of the revised guidance did not have a material impact on the consolidated financial statements.

On February 24, 2010, FASB amended its guidance on subsequent events to no longer require companies filing periodic reports with the U.S. Securities and Exchange Commission ("SEC") to disclose the date through which subsequent events have been evaluated in originally issued and revised financial statements in order to alleviate potential conflicts between FASB's guidance and the SEC's filing requirements. This guidance was effective immediately upon issuance. The adoption of this guidance had no impact on the Company's results of operations or financial condition. While the Company's consolidated financial statements no longer disclose the date through

CONSOLIDATED FINANCIAL STATEMENTS — (Continued)

which it has evaluated subsequent events, the Company continues to be required to evaluate subsequent events through the date when its financial statements are issued.

The Company has determined that all other recently issued accounting pronouncements will not have a material impact on its consolidated financial statements, or do not apply to its operations.

2. ACQUISITIONS

The Company accounts for acquisitions using the purchase method of accounting, which requires that the acquirer record the assets and liabilities acquired at their estimated fair value. The fair values of reinsurance assets and liabilities acquired are derived from probability weighted ranges of the associated projected cash flows, based on actuarially prepared information and management's run-off strategy. Any amendment to the fair values resulting from changes in such information or strategy will be recognized when the changes occur.

Knapton Insurance (formerly British Engine)

On March 2, 2010, the Company, through its wholly-owned subsidiary, Knapton Holdings Limited ("Knapton Holdings"), completed the acquisition of Knapton Insurance Limited, formerly British Engine Insurance Limited ("Knapton"), from RSA Insurance Group plc for a total purchase price of approximately £28.8 million (approximately \$44.0 million). The following summarizes the estimated fair values of the assets acquired and the liabilities assumed at the date of the acquisition:

At June 30, 2010 and December 31, 2009, the Company had \$83.5 million and \$77.4 million, respectively, of private equity investments recorded in limited partnerships and limited liability companies. These private equity investments represented 2.4% and 2.3% of total investments and cash and cash equivalents at June 30, 2010 and December 31, 2009, respectively. All of the Company's investments in limited partnerships and limited liability companies are subject to restrictions on redemptions and sales that are determined by the governing documents and limit the Company's ability to liquidate these investments in the short term. Due to a lag in the valuations reported by the managers, the Company records changes in the investment value with up to a three-month lag. These investments are accounted for at estimated fair value determined by the Company's proportionate share of the net asset value of the investee reduced by any impairment charges. As at June 30, 2010 and December 31, 2009, the Company had unfunded capital commitments relating to its private equity investments of \$100.5 million and \$101.1 million, respectively.

Other-Than-Temporary Impairment Process

Upon the adoption of the new guidance on investments in debt and equity securities, effective April 1, 2009, the Company changed its quarterly process for assessing whether declines in the fair value of its fixed maturity investments, both available-for-sale and held-to-maturity, represented impairments that are other-than-temporary. The process now includes reviewing each fixed maturity investment that is impaired and determining: (1) if the Company has the intent to sell the fixed maturity investment or (2) if it is more likely than not that the Company will be required to sell the fixed maturity investment before its anticipated recovery; and (3) assessing whether a credit loss exists, that is, where the Company expects that the present value of the cash flows expected to be collected from the fixed maturity investment are less than the amortized cost basis of the investment.

5. INVESTMENTS — (cont'd)

The Company had no planned sales of its fixed maturity investments classified as available-for-sale or held-to-maturity in an unrealized loss position as at June 30, 2010. In assessing whether it is more likely than not that the Company will be required to sell a fixed maturity investment before its anticipated recovery, the Company considers various factors including its future cash flow requirements, legal and regulatory requirements, the level of its cash, cash equivalents, short-term investments and fixed maturity investments available for sale in an unrealized gain position, and other relevant factors. For the six months ended June 30, 2010, the Company did not recognize any other-than-temporary impairments due to required sales.

In evaluating credit losses, the Company considers a variety of factors in the assessment of a fixed maturity investment including: (1) the time period during which there has been a significant decline below cost; (2) the extent of the decline below cost and par; (3) the potential for the fixed maturity investment to recover in value; (4) an analysis of the financial condition of the issuer; (5) the rating of the issuer; and (6) failure of the issuer of the fixed maturity investment to make scheduled interest or principal payments.

Based on the factors described above, the Company determined that, as at June 30, 2010, no credit losses existed.

Fair Value of Financial Instruments

Fair value is defined as the price to sell an asset or transfer a liability (i.e. the "exit price") in an orderly transaction between market participants. The Company uses a fair value hierarchy that gives the highest priority to quoted prices in active markets and the lowest priority to unobservable data. The hierarchy is broken down into three levels as follows:

- Level 1 — Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 instruments.
- Level 2 — Valuations based on quoted prices in active markets for similar assets or liabilities, quoted prices for identical assets or liabilities in inactive markets, or for which significant inputs are observable (e.g. interest rates, yield curves, prepayment speeds, default rates, loss severities, etc.) or can be corroborated by observable market data.
- Level 3 — Valuations based on inputs that are unobservable and significant to the overall fair value measurement. The unobservable inputs reflect the Company's own judgment about assumptions that market participants might use.

The following is a summary of valuation techniques or models the Company uses to measure fair value by asset and liability classes.

Fixed Maturity Investments

The Company's fixed maturity portfolio is managed by its outside investment advisors. Through these third parties, the Company uses nationally recognized pricing services, including pricing vendors, index providers and broker-dealers to estimate fair value measurements for all of its fixed maturity investments. These pricing services include Barclays Capital Aggregate Index (formerly Lehman Index), Reuters Pricing Service, FT Interactive Data and others.

The pricing services use market quotations for securities (e.g., public common and preferred securities) that have quoted prices in active markets. When quoted market prices are unavailable, the pricing service prepares estimates of fair value measurements for these securities using its proprietary pricing applications, which include

available relevant market information, benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing.

With the exception of two securities within the Company's trading portfolio, the fair value estimates of its fixed maturity investments are based on observable market data. The Company has therefore included these as Level 2 investments within the fair value hierarchy. The two securities in its trading portfolio that do not have observable inputs have been included as Level 3 investments within the fair value hierarchy.

To validate the techniques or models used by the pricing services, the Company compares the fair value estimates to its knowledge of the current market and challenges any prices deemed not to be representative of fair value.

As of June 30, 2010 there were no material differences between the prices obtained from the pricing services and the fair value estimates developed by the Company.

Equity Securities

The Company's equity securities are managed by two external advisors. Through these third parties, the Company uses nationally recognized pricing services, including pricing vendors, index providers and broker-dealers to estimate fair value measurements for all of its equity securities. These pricing services include FT Interactive Data and others.

The Company has categorized all but one of its equity securities as Level 1 investments because these securities are based on quoted prices in active markets for identical assets or liabilities. The one equity security that was not categorized as Level 1 was instead categorized as Level 3 because, due to the nature of the investment, management had to make assumptions regarding its valuation.

Other Investments

For its investments in hedge funds, limited partnerships and limited liability companies, the Company measures fair value by obtaining the most recently published net asset value as advised by the external fund manager or third-party administrator. The financial statements of each fund generally are audited annually, using fair value measurement for the underlying investments. For all publicly traded companies within the funds, the Company has valued those investments based on the latest share price. The value of Affirmative Investment LLC (in which the Company owns a non-voting 7% membership interest) is based on the market value of the shares of Affirmative Insurance Holdings, Inc., a publicly traded company.

All of the Company's investments in limited partnerships and limited liability companies are subject to restrictions on redemptions and sales that are determined by the governing documents and limit the Company's ability to liquidate those investments in the short term.

The Company has classified its hedge funds, limited partnerships and limited liability companies as Level 3 investments because they reflect the Company's own judgment about the assumptions that market participants might use.

The short duration high yield fund is classified within Level 2 as its fair value is estimated using the net asset value reported by Bloomberg and it has daily liquidity.

The investments on deposit are available to settle insurance and reinsurance liabilities. The Company also utilizes trust accounts to collateralize business with its insurance and reinsurance counterparties. These trust accounts generally take the place of letter of credit requirements. The investments in trust as collateral are primarily highly rated fixed maturity securities. 6. INVESTMENT IN PARTLY OWNED COMPANIES

On June 13, 2008, the Company's indirect subsidiary Virginia Holdings Ltd. ("Virginia"), completed the acquisition from Dukes Place Holdings, L.P. (a portfolio company of GSC European Mezzanine Fund II, L.P.) of 44.4% of the outstanding capital stock of Stonewall Acquisition Corporation ("SAC"), the parent of two Rhode Island-domiciled insurers in run-off, Stonewall Insurance Company and Seaton Insurance Company. The total purchase price, including acquisition costs, was \$21.4 million and was funded from available cash on hand. SAC entered into a definitive agreement on December 3, 2009 for the sale of its shares in Stonewall Insurance Company to Columbia Insurance Company, an affiliate of National Indemnity Company (an indirect subsidiary of Berkshire Hathaway, Inc.), for a sale price of \$56.0 million, subject to certain post-closing purchase price adjustments that brought the total consideration received to \$60.4 million. The transaction received the required regulatory approval on March 31, 2010 and subsequently closed on April 7, 2010. The proceeds received by SAC are being distributed among Dukes Place Holdings, L.P. and Virginia. The investment is carried on the equity basis whereby the investment is initially recorded at cost and adjusted to reflect the Company's share of after-tax earnings or losses and unrealized investment gains and losses and reduced by dividends. During the three months and six months ended June 30, 2010 the Company recorded earnings of \$2.2 million and \$9.4 million, respectively, representing the Company's share of after-tax earnings as compared to \$nil and \$0.3 million for the same periods in 2009.

7. LOSSES AND LOSS ADJUSTMENT EXPENSES — (cont'd)

The following table shows the components of the movement in the net reduction in ultimate loss and loss adjustment expense liabilities for the three months ended June 30, 2010 and 2009:

	<u>Three Months Ended June 30,</u>	
	<u>2010</u>	<u>2009</u>
Net losses paid	\$(47,863)	\$(67,449)
Net change in case and loss adjustment expense (LAE) reserves	53,718	26,896
Net change in incurred but not reported (IBNR) reserves	<u>29,249</u>	<u>58,295</u>
Reduction in estimates of net ultimate losses	35,104	17,742
Reduction in provisions for bad debt	7,768	—
Reduction in provisions for unallocated loss and loss adjustment expense liabilities	11,696	9,422
Amortization of fair value adjustments	<u>(12,202)</u>	<u>(9,771)</u>
Net reduction in ultimate loss and loss adjustment expense liabilities	<u>\$ 42,366</u>	<u>\$ 17,393</u>

Net change in case and LAE reserves comprises the movement during the quarter in specific case reserve liabilities as a result of claims settlements or changes advised to us by the Company's policyholders and attorneys, less changes in case reserves recoverable advised by the Company to its reinsurers as a result of the settlement or movement of assumed claims. Net change in IBNR reserves represents the change in the Company's actuarial estimates of losses incurred but not reported.

The net reduction in ultimate loss and loss adjustment expense liabilities for the three months ended June 30, 2010 of \$42.4 million was attributable to a reduction in estimates of net ultimate losses of \$35.1 million, a reduction in provisions for bad debt of \$7.8 million and a reduction in provisions for unallocated loss and loss adjustment expense liabilities of \$11.7 million, relating to 2010 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments relating to companies acquired amounting to \$12.2 million.

The reduction in estimates of net ultimate losses of \$35.1 million comprised net favorable incurred loss development of \$5.9 million along with reductions in IBNR reserves of \$29.2 million. Subsequent to June 30, 2010, claims liabilities of certain policyholders within a number of our insurance and reinsurance subsidiaries were commuted at levels that required the reduction in IBNR reserves for those subsidiaries. The reductions in provisions for bad debt of \$7.8 million resulted from the collection of receivables against which bad debt provisions had been provided in earlier periods.

The net reduction in loss and loss adjustment expense liabilities for the three months ended June 30, 2009 of \$17.4 million was attributable to a reduction in estimates of net ultimate losses of \$17.7 million and a reduction in loss adjustment expense of \$9.4 million, relating to 2009 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments of \$9.8 million relating to companies acquired. The reduction in estimates of net ultimate losses of \$17.7 million primarily related to the reduction in estimates of net ultimate losses of \$13.0 million in one of the Company's subsidiaries. This reduction in estimates of net ultimate losses of \$13.0 million was comprised of net favorable incurred loss development for the six months ended June 30, 2009 of \$2.6 million and reductions in IBNR reserves of \$10.4 million. The net favorable incurred loss development of \$2.6 million, whereby net advised case and LAE reserves of \$6.6 million were settled for net paid losses of \$4.0 million, arose from the settlement of losses during the period below carried reserves. The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$10.4 million was the result of the application of the Company's reserving methodologies to the reduced case and LAE reserves following the subsidiary's semi-annual actuarial review of reserves as required by local regulation.

7. LOSSES AND LOSS ADJUSTMENT EXPENSES — (cont'd)

The net reduction in loss and loss adjustment expense liabilities for the six months ended June 30, 2009 of \$44.1 million was attributable to a reduction in estimates of net ultimate losses of \$47.6 million, a reduction in provisions for bad debts of \$9.7 million and a reduction in estimates of loss adjustment expense liabilities of \$19.5 million, relating to 2009 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments relating to companies acquired amounting to \$32.7 million.

The reduction in estimates of net ultimate losses of \$47.6 million primarily related to a reduction in estimates of loss reserves in two of the Company's subsidiaries of \$33.9 million following the commutation of one of the Company's largest ten assumed and ceded exposures at less than case and LAE reserves and the agreement of claims liabilities of certain policyholders at levels that required a reassessment of IBNR reserves.

In addition, the Company recognized a reduction in estimates of net ultimate losses of \$13.0 million in one of the Company's subsidiaries as a result of net favorable incurred loss development for the six months ended June 30, 2009 of \$2.6 million and reductions in IBNR reserves of \$10.4 million. The net favorable incurred loss development of \$2.6 million, whereby net advised case and LAE reserves of \$6.6 million were settled for net paid losses of \$4.0 million, arose from the settlement of losses during the period below carried reserves. The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$10.4 million was the result of the application of the Company's reserving methodologies to the reduced case and LAE reserves following the subsidiary's semi-annual actuarial review of reserves as required by local regulation.

12. SEGMENT INFORMATION

The determination of reportable segments is based on how senior management monitors the Company's operations. The Company measures the results of its operations under two major business categories: reinsurance and consulting.

The Company's consulting segment comprises the operations and financial results of those subsidiaries that provide management and consulting services, forensic claims inspections services and reinsurance collection services to third-party clients, as well as to the Company's reinsurance segment, in return for management fees. The Company provides consulting and management services through its subsidiaries located in the United States, Bermuda and Europe to large multinational company clients with insurance and reinsurance companies and portfolios in run-off relating to risks spanning the globe. As a result, extracting and quantifying revenues attributable to certain geographic locations would be impracticable given the global nature of the business.

All of the consulting fees for the reinsurance segment relate to intercompany fees paid to the consulting segment.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of Enstar Group Limited

We have reviewed the accompanying condensed consolidated balance sheet of Enstar Group Limited and subsidiaries (the "Company") as of June 30, 2010, and the related condensed consolidated statements of earnings and comprehensive income for the three-month and six-month periods ended June 30, 2010 and 2009 and changes in shareholders' equity and cash flows for the six-month periods ended June 30, 2010 and 2009. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to such condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of Enstar Group Limited and subsidiaries as of December 31, 2009 and the related consolidated statements of earnings, comprehensive income, changes in shareholders' equity, and cash flows for the year then ended; and in our report dated March 3, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2009 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following is a discussion and analysis of our results of operations for the three and six months ended June 30, 2010 and 2009. This discussion and analysis should be read in conjunction with the attached unaudited condensed consolidated financial statements and notes thereto and the audited consolidated financial statements and notes thereto contained in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

Business Overview

Enstar Group Limited, or Enstar, was formed in August 2001 under the laws of Bermuda to acquire and manage insurance and reinsurance companies in run-off and portfolios of insurance and reinsurance business in run-off, and to provide management, consulting and other services to the insurance and reinsurance industry.

Since our formation, we have acquired a number of insurance and reinsurance companies and several portfolios of insurance and reinsurance business and are now administering those businesses in run-off. We derive our net earnings from the ownership and management of these companies and portfolios of business in run-off primarily by settling insurance and reinsurance claims below the recorded loss reserves and from returns on the portfolio of investments retained to pay future claims. In addition, we provide management and consultancy services, claims inspection services and reinsurance collection services to our affiliates and third-party clients for both fixed and success-based fees.

We reported consolidated net earnings, before net earnings attributable to noncontrolling interest, of approximately \$23.5 million and \$19.3 million for the three months ended June 30, 2010 and 2009, respectively. The increase in earnings of approximately \$4.2 million was primarily attributable to the following:

- (i) an increase in the net reduction in ultimate loss and loss adjustment expense liabilities of \$25.0 million;
- (ii) an increase of \$4.5 million in net investment income due primarily to an increase in the fair value of our investments classified as other investments;
- (iii) an increase of \$2.3 million in salaries and benefits;
- (iv) an increase in net foreign exchange gains of \$4.0 million; and

[Table of Contents](#)

- (v) an increase of \$2.2 million in income earned from our investment in our partly owned subsidiary; partially offset by
- (vi) an increase in income taxes of \$16.1 million due to higher tax liabilities recorded on the results of our taxable subsidiaries;
- (vii) a decrease in net realized gains of \$9.3 million due to movement in the value of our equity portfolios; and
- (viii) an increase in our general and administrative expenses of \$4.9 million due to increased bank charges associated with increased letter of credit costs and loan structure fees along with increased expenses associated with Shelbourne and Lloyd's Syndicate 2008.

We recorded noncontrolling interest in earnings of \$11.1 million and \$10.5 million for the three months ended June 30, 2010 and 2009, respectively. Net earnings attributable to Enstar Group Limited increased from \$8.8 million for the three months ended June 30, 2009 to \$12.4 million for the three months ended June 30, 2010.

We earned consulting fees of approximately \$13.6 million and \$12.4 million for the three months ended June 30, 2010 and 2009, respectively. The increase in consulting fees primarily related to additional fees received from our reinsurance segment.

Internal management fees of \$10.1 million and \$8.2 million were paid for the three months ended June 30, 2010 and 2009, respectively, by our reinsurance companies to our consulting companies. The increase in internal fees paid to the consulting segment was due primarily to fees earned from new acquisitions that were completed subsequent to June 30, 2009.

Total	\$ 22,998	\$18,493	\$ 4,505	\$(4,227)	\$5,080	\$(9,307)

Net investment income for the three months ended June 30, 2010 increased by \$4.5 million to \$23.0 million, as compared to \$18.5 million for the same period in 2009. The increase was primarily attributable the combination of the following items:

- (i) an increase of \$1.7 million in the fair value of our private equity investments compared to an increase of \$0.5 million for the three months ended June 30, 2009; and
- (ii) an increase of \$2.2 million in investment income during the three months ended June 30, 2010 from the return on a particular security classified as other investments.

During the three months ended June 30, 2010, we also transferred a significant percentage of our cash holdings into short-term and fixed maturity investments in an effort to seek higher returns. For the three months ended June 30, 2010 and 2009, we had 62.9% and 39.8%, respectively, of our total cash and investments in short-term and

fixed maturity investments. The average return on our total cash and investments, excluding other investments, for the three months ended June 30, 2010 was 1.46%, as compared to the average return of 1.96% for the three months ended June 30, 2009. The average Standard & Poor's credit rating of our fixed income investments at June 30, 2010 was AA-

Net realized (losses) gains for the three months ended June 30, 2010 and 2009 were \$(4.2) million and \$5.1 million, respectively. The decrease in net realized gains relates primarily to mark-to-market changes in the market value of our equity investments.

Net Reduction in Ultimate Loss and Loss Adjustment Expense Liabilities:

The following table shows the components of the movement in the net reduction in ultimate loss and loss adjustment expense liabilities for the three months ended June 30, 2010 and 2009:

	Three Months Ended June 30,	
	2010	2009
	(in thousands of U.S. dollars)	
Net losses paid	\$ (47,863)	\$ (67,449)

Net reduction in ultimate loss and loss adjustment expense liabilities	<u>\$ 42,366</u>	<u>\$ 17,393</u>

Net change in case and loss adjustment expense reserves, or LAE reserves, comprises the movement during the quarter in specific case reserve liabilities as a result of claims settlements or changes advised to us by our policyholders and attorneys, less changes in case reserves recoverable advised by us to our reinsurers as a result of the settlement or movement of assumed claims. Net change in Incurred But Not Reported reserves, or IBNR reserves, represents the change in our actuarial estimates of losses incurred but not reported.

[Table of Contents](#)

The net reduction in ultimate loss and loss adjustment expense liabilities for the three months ended June 30, 2010 of \$42.4 million was attributable to a reduction in estimates of net ultimate losses of \$35.1 million, a reduction in provisions for bad debt of \$7.8 million and a reduction in provisions for unallocated loss and loss adjustment expense liabilities of \$11.7 million, relating to 2010 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments relating to companies acquired amounting to \$12.2 million.

The reduction in estimates of net ultimate losses of \$35.1 million comprised net favorable incurred loss development of \$5.9 million along with reductions in IBNR reserves of \$29.2 million. Subsequent to June 30, 2010, claims liabilities of certain policyholders within a number of our insurance and reinsurance subsidiaries were commuted at levels that required the reduction in IBNR reserves for those subsidiaries. The reductions in provisions for bad debt of \$7.8 million resulted from the collection of receivables against which bad debt provisions had been provided in earlier periods.

The net reduction in loss and loss adjustment expense liabilities for the three months ended June 30, 2009 of \$17.4 million was attributable to a reduction in estimates of net ultimate losses of \$17.7 million and a reduction in loss adjustment expense of \$9.4 million, relating to 2009 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments of \$9.8 million relating to companies acquired. The reduction in estimates of net ultimate losses of \$17.7 million primarily related to the reduction in estimates of net ultimate losses of \$13.0 million in one of our subsidiaries. This reduction in estimates of net ultimate losses of \$13.0 million was comprised of net favorable incurred loss development for the six months ended June 30, 2009 of \$2.6 million and reductions in IBNR reserves of \$10.4 million. The net favorable incurred loss development of \$2.6 million, whereby net advised case and LAE reserves of \$6.6 million were settled for net paid losses of \$4.0 million, arose from the settlement of losses during the period below carried reserves. The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$10.4 million was the result of the application of our reserving methodologies to the reduced case and LAE reserves following the subsidiary's semi-annual actuarial review of reserves as required by local regulation.

The table below provides a reconciliation of the beginning and ending reserves for losses and loss adjustment expenses for the three months ended June 30, 2010 and 2009. Losses incurred and paid are reflected net of reinsurance recoverables.

Total	\$14,254	\$11,914	\$ (2,340)

Salaries and benefits, which include expenses relating to our discretionary bonus and employee share plans, were \$14.3 million and \$11.9 million for the three months ended June 30, 2010 and 2009, respectively.

The increase in salaries and benefits is primarily attributable to:

- (i) increased staff costs due to an increase in average staff numbers from 286 for the three months ended June 30, 2009 to 309 for the three months ended June 30, 2010;
- (ii) an increase in the discretionary bonus expense for the three months ended June 30, 2010 of \$0.6 million as a result of higher earnings;
- (iii) the amortization for the three months ended June 30, 2010 of the unrecognized compensation costs of \$0.5 million in respect of the restricted shares that were awarded to certain employees in 2010 under our 2006 Equity Incentive Plan; and
- (iv) increased U.S. dollar costs of our U.K.-based staff following an increase in the average British pound exchange rate from approximately 1.4950 for the three months ended June 30, 2009 to 1.5256 for the three months ended June 30, 2010, respectively.

Of our total headcount as at June 30, 2009 and June 30, 2010, approximately 67% and 68%, respectively, had their salaries paid in British pounds. Expenses relating to our discretionary bonus plan will be variable and are dependent on our overall profitability.

General and Administrative Expenses:

Reinsurance	10,630	6,727	(3,903)

General and administrative expenses attributable to the reinsurance segment increased by \$3.9 million during the three months ended June 30, 2010, as compared to the three months ended June 30, 2009. The increase of \$3.9 million was primarily due to:

- (i) increased bank costs of \$1.5 million primarily associated with the costs of establishing and maintaining our letters of credit, along with structure fees paid in relation to the establishment of the Knapton Facility; and
- (ii) increased other general and administrative expenses of \$2.4 million relating primarily to increased expenses associated with Shelbourne and Lloyd's Syndicate 2008.

[Table of Contents](#)

Interest expense of \$2.8 million and \$4.7 million were recorded for the three months ended June 30, 2010 and 2009, respectively. The decrease in interest expense is primarily attributable to the decrease in the principal remaining on outstanding bank borrowings as at June 30, 2010 as compared to June 30, 2009, as well as lower interest rates. As at June 30, 2009, we had approximately \$354.8 million of outstanding bank debt as compared to approximately \$270.9 million as at June 30, 2010.

Foreign Exchange Gain/(Loss):

	Three Months Ended June 30,		
	2010	2009	Variance
	(in thousands of U.S. dollars)

Reinsurance	5,904	948	4,956
Total	\$5,615	\$1,611	\$ 4,004

We recorded a foreign exchange gain of \$5.6 million and \$1.6 million for the three months ended June 30, 2010 and 2009, respectively. The foreign exchange gain for the three months ended June 30, 2010 arose primarily as a result of the holding of surplus U.S. dollar assets in one of our subsidiaries whose functional currency is Australian dollars at a time when the U.S. dollar had been appreciating against the currency, partially offset by foreign exchange losses arising as a result of our holding surplus British pounds.

For the three months ended June 30, 2009, the foreign exchange gain arose primarily as a result of holding surplus British pounds relating primarily to cash collateral requirements to support British pound denominated letters of credit required by U.K. regulators, partially offset by foreign exchange losses arising as a result of the holding of surplus U.S. dollar assets in one of our subsidiaries whose functional currency is Australian dollars at a time when the U.S. dollar had been depreciating against the currency.

In addition to the foreign exchange gains recorded in our consolidated statement of earnings for the three months ended June 30, 2010, we recorded in our condensed consolidated statement of comprehensive income currency translation adjustment losses, net of noncontrolling interest, of \$16.0 million as compared to gains of \$27.7 million for the same period in 2009. For the three months ended June 30, 2010 and 2009, the currency translation adjustments related primarily to our Australian subsidiaries, or, collectively, Gordian. Since the functional currency of Gordian is Australian dollars, we are required to record any U.S. dollar gains or losses on the translation of the net Australian dollar assets of Gordian through accumulated other comprehensive income.

Reinsurance	(16,235)	1,723	(17,958)

We recorded income tax (expense)/recovery of \$(16.1) million and \$0.1 million for the three months ended June 30, 2010 and 2009, respectively. The increase in taxes for the three months ended June 30, 2010 was due primarily to an increase in earnings of some of our companies operating in tax paying jurisdictions.

Share of Net Earnings of Partly Owned Company:

Consulting	\$ —	\$ —	\$ —
Reinsurance	2,203	—	2,203
Total	\$2,203	\$ —	\$ 2,203

For the three months ended June 30, 2010, we recorded \$2.2 million for our share of net earnings of partly owned company as compared to \$nil for the three months ended June 30, 2009. The \$2.2 million was our share of the earnings of SAC which related primarily to the post-closing purchase price adjustment in connection with SAC's sale of its interest in Stonewall Insurance Company (discussed above in "— Recent Transactions").

Noncontrolling Interest:

Reinsurance	(11,050)	(10,529)	(521)
Total	\$ (11,050)	\$ (10,529)	\$ (521)

We recorded noncontrolling interest in earnings of \$11.1 million and \$10.5 million for the three months ended June 30, 2010 and 2009, respectively. The costs associated with our noncontrolling interest are variable and wholly dependent on the results for the period of those subsidiaries for which there exists a noncontrolling interest.

Comparison of the Six Months Ended June 30, 2010 and 2009

We reported consolidated net earnings, before net earnings attributable to noncontrolling interest, of approximately \$41.1 million and \$30.1 million for the six months ended June 30, 2010 and 2009, respectively. The increase in earnings of approximately \$11.0 million was primarily attributable to the following:

- (i) an increase in investment income (net of realized gains/(losses)) of \$12.2 million primarily as a result of an increase in 2010 in the fair value of our private equity portfolio classified as other investments of \$11.1 million as compared to a writedown in 2009 of \$1.4 million;
- (ii) an increase in consulting fee income of \$10.1 million due to increased fees earned in respect of incentive-based engagements;
- (iii) an increase in the reduction in ultimate loss and loss adjustment expense liabilities of \$7.9 million;
- (iv) an increase of \$9.1 million in income earned from our investment in our partly owned subsidiary; and
- (v) reduced interest expense of \$4.4 million due primarily to an overall reduction in loan facility balances outstanding as at June 30, 2010; partially offset by
- (vi) an increase in income taxes of \$22.7 million due to higher tax liabilities recorded on the results of our taxable subsidiaries;
- (vii) an increase in our general and administrative expenses of \$3.0 million;
- (viii) an increase in salary and benefits costs of \$5.1 million primarily due to increased salary costs related to our discretionary bonus plan as a result of increased net earnings in the period along with an increase in our overall headcount; and
- (xi) an increase in net foreign exchange losses of \$2.0 million.

[Table of Contents](#)

We recorded noncontrolling interest in earnings of \$12.7 million and \$9.8 million for the six months ended June 30, 2010 and 2009, respectively. Net earnings attributable to Enstar Group Limited increased from \$20.3 million for the six months ended June 30, 2009 to \$28.4 million for the six months ended June 30, 2010.

Consulting Fees:

Reinsurance	(31,592)	(16,243)	(15,349)
Total	\$ 17,628	\$ 7,515	\$ 10,113

We earned consulting fees of approximately \$49.2 million and \$23.8 million for the six months ended June 30, 2010 and 2009, respectively. The increase in consulting fees primarily related to the combination of additional fees received from our reinsurance segment and increased incentive fees earned from third party agreements.

Internal management fees of \$31.6 million and \$16.2 million were paid for the six months ended June 30, 2010 and 2009, respectively, by our reinsurance companies to our consulting companies. The increase in internal fees paid to the consulting segment was due primarily to additional fees paid by our reinsurance companies relating to allocated charges for increases in salary and general and administrative expenses.

Net Investment Income and Net Realized Losses:

Total	\$49,119	\$35,802	\$13,317	\$ (2,025)	\$ (930)	\$ (1,095)

Net investment income for the six months ended June 30, 2010 increased by \$13.3 million to \$49.1 million, as compared to \$35.8 million for the same period in 2009. The increase was primarily attributable to an increase in the fair value of our private equity investments of \$12.5 million, from a writedown of \$1.4 million for the six months ended June 30, 2009 to an increase of \$11.1 million for the six months ended June 30, 2010.

The average return on our total cash and investments, excluding other investments, for the six months ended June 30, 2010 was 1.84%, as compared to the average return of 1.76% for the six months ended June 30, 2009. The average Standard & Poor's credit rating of our fixed income investments at June 30, 2010 was AA-.

Net realized losses for the six months ended June 30, 2010 and 2009 were \$2.0 million and \$0.9 million, respectively. The net realized losses were a result of writedowns in the market value of our equity investments.

Net Reduction in Ultimate Loss and Loss Adjustment Expense Liabilities:

The following table shows the components of the movement in the net reduction in ultimate loss and loss adjustment expense liabilities for the six months ended June 30, 2010 and 2009:

	Six Months Ended	
	June 30,	
	2010	2009
	(in thousands of U.S. dollars)	
Net losses paid	\$ (131,088)	\$ (79,821)
Net change in case and LAE reserves	132,572	58,904
Net change in IBNR reserves	35,562	68,483
Reduction in estimates of net ultimate losses	37,046	47,566
Reduction in provisions for bad debt	13,107	9,714
Reduction in provisions for unallocated loss and loss adjustment expense liabilities	20,661	19,540
Amortization of fair value adjustments	(18,852)	(32,748)
Net reduction in ultimate loss and loss adjustment expense liabilities	\$ 51,962	\$ 44,072

The net reduction in ultimate loss and loss adjustment expense liabilities for the six months ended June 30, 2010 of \$52.0 million was attributable to a reduction in estimates of net ultimate losses of \$37.0 million, a reduction in provisions for bad debt of \$13.1 million and a reduction in provisions for unallocated loss and loss adjustment expense liabilities of \$20.7 million, relating to 2010 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments relating to companies acquired amounting to \$18.8 million.

The reduction in estimates of net ultimate losses of \$37.0 million comprised net favorable incurred loss development of \$1.5 million along with reductions in IBNR reserves of \$35.6 million. Subsequent to the period end, claims liabilities of certain policyholders within a number of our insurance and reinsurance subsidiaries were commuted at levels that required the reduction in IBNR reserves for those subsidiaries. The reductions in provisions for bad debt of \$13.1 million resulted from the collection of receivables against which bad debt provisions had been provided in earlier periods.

The net reduction in loss and loss adjustment expense liabilities for the six months ended June 30, 2009 of \$44.1 million was attributable to a reduction in estimates of net ultimate losses of \$47.6 million, a reduction in provisions for bad debts of \$9.7 million and a reduction in estimates of loss adjustment expense liabilities of \$19.5 million, relating to 2009 run-off activity, partially offset by the amortization, over the estimated payout period, of fair value adjustments relating to companies acquired amounting to \$32.7 million.

The reduction in estimates of net ultimate losses of \$47.6 million primarily related to a reduction in estimates of loss reserves in two of our subsidiaries of \$33.9 million following the commutation of one of our largest ten assumed and ceded exposures at less than case and LAE reserves and the agreement of claims liabilities of certain policyholders at levels that required a reassessment of IBNR reserves.

In addition, we recognized a reduction in estimates of net ultimate losses of \$13.0 million in one of our subsidiaries as a result of net favorable incurred loss development for the six months ended June 30, 2009 of \$2.6 million and reductions in IBNR reserves of \$10.4 million. The net favorable incurred loss development of \$2.6 million, whereby net advised case and LAE reserves of \$6.6 million were settled for net paid losses of \$4.0 million, arose from the settlement of losses during the period below carried reserves. The net reduction in the estimate of the subsidiary's IBNR loss and loss adjustment expense liabilities of \$10.4 million was the result of the application of our reserving methodologies to the reduced case and LAE reserves following the subsidiary's semi-annual actuarial review of reserves as required by local regulation.

Salaries and benefits, which include expenses relating to our discretionary bonus and employee share plans, were \$29.4 million and \$24.3 million for the six months ended June 30, 2010 and 2009, respectively.

The increase in salaries and benefits is primarily attributable to:

- (i) increased staff costs due to an increase in average staff numbers from 287 for the six months ended June 30, 2009 to 302 for the six months ended June 30, 2010;
- (ii) amortization of the unrecognized compensation costs of \$0.6 million relating to the restricted shares that were awarded to certain employees in 2010 under our 2006 Equity Incentive Plan;
- (iii) an increase in the discretionary bonus expense for the six months ended June 30, 2010 of \$1.4 million due to higher earnings; and
- (iv) increased U.S. dollar costs of our U.K.-based staff following an increase in the average British pound exchange rate from approximately 1.4929 for the six months ended June 30, 2009 to 1.5269 for the six months ended June 30, 2010, respectively.

Of our total headcount as at June 30, 2009 and June 30, 2010, approximately 67% and 68%, respectively, had their salaries paid in British pounds. Expenses relating to our discretionary bonus plan will be variable and are dependent on our overall profitability.

General and Administrative Expenses:

	<u>Six Months Ended June 30,</u>		
	<u>2010</u>	<u>2009</u>	<u>Variance</u>
	<u>(in thousands of U.S. dollars)</u>		
Consulting	\$ 9,754	\$ 8,508	\$ (1,246)
Reinsurance	16,534	14,784	(1,750)
Total	<u>\$26,288</u>	<u>\$23,292</u>	<u>\$ (2,996)</u>

General and administrative expenses attributable to the reinsurance segment increased by \$1.8 million during the six months ended June 30, 2010, as compared to the six months ended June 30, 2009. The increase of \$1.8 million was primarily due to: (i) increased bank costs of \$1.5 million primarily associated with the costs of establishing and maintaining our letters of credit along with structure fees paid in relation to the establishment of the Knapton Facility; and (ii) increased other general and administrative expenses of \$2.0 million relating primarily to increased expenses associated with Shelbourne and Lloyd's Syndicate 2008; partially offset by (iii) reduced rent expense of \$0.8 million in relation to reassessment of lease shortfall and dilapidation costs for office space we acquired upon the acquisition of Copenhagen Reinsurance Company Ltd.; and (iv) reduced professional fees of \$0.8 million.

Interest Expense:

	<u>Six Months Ended June 30,</u>		
	<u>2010</u>	<u>2009</u>	<u>Variance</u>
	<u>(in thousands of U.S. dollars)</u>		
Consulting	\$ —	\$ —	\$ —
Reinsurance	5,199	9,640	4,441
Total	<u>\$5,199</u>	<u>\$9,640</u>	<u>\$ 4,441</u>

Interest expense of \$5.2 million and \$9.6 million was recorded for the six months ended June 30, 2010 and 2009, respectively. The decrease in interest expense is primarily attributable to the decrease in the principal remaining on outstanding bank borrowings as at June 30, 2010 as compared to June 30, 2009, as well as lower interest rates. As at June 30, 2009 we had approximately \$354.8 million of outstanding bank debt as compared to approximately \$270.9 million as at June 30, 2010.

Foreign Exchange (Loss)/Gain:

	<u>Six Months Ended June 30,</u>		
	<u>2010</u>	<u>2009</u>	<u>Variance</u>
	<u>(in thousands of U.S. dollars)</u>		
Consulting	\$ (652)	\$ 374	\$ (1,026)
Reinsurance	(1,321)	(361)	(960)
Total	<u>\$(1,973)</u>	<u>\$ 13</u>	<u>\$(1,986)</u>

We recorded a foreign exchange (loss) gain of \$(2.0) million and \$0.1 million for the six months ended June 30, 2010 and 2009, respectively. The foreign exchange loss for the six months ended June 30, 2010 arose primarily as a result of holding surplus British pounds relating primarily to cash collateral requirements to support British pound denominated letters of credit required by U.K. regulators, partially offset by foreign exchange losses arising as a result of the holding of surplus U.S. dollar assets in one of our subsidiaries whose functional currency is Australian dollars at a time when the U.S. dollar had been appreciating against the currency.

For the six months ended June 30, 2009, the foreign exchange gain arose primarily as a result of holding surplus British pounds relating primarily to cash collateral requirements to support British pound denominated letters of credit required by U.K. regulators, partially offset by the combination of realized foreign exchange losses on currency translations and foreign exchange losses arising as a result of the holding of surplus U.S. dollar assets in

[Table of Contents](#)

one of our subsidiaries whose functional currency is Australian dollars at a time when the U.S. dollar had been depreciating against the currency.

In addition to the foreign exchange losses recorded in our consolidated statement of earnings for the six months ended June 30, 2010, we recorded in our condensed consolidated statement of comprehensive income currency translation adjustment losses, net of noncontrolling interest, of \$12.1 million as compared to gains of \$25.6 million for the same period in 2009. For the six months ended June 30, 2010 and 2009, the currency translation adjustments related primarily to Gordian. Since the functional currency of Gordian is Australian dollars, we are required to record any U.S. dollar gains or losses on the translation of the net Australian dollar assets of Gordian through accumulated other comprehensive income.

Income Tax (Expense)/Recovery:

	Six Months Ended June 30,		
	2010	2009	Variance
	(in thousands of U.S. dollars)		
Consulting	\$ (3,454)	\$ (1,207)	\$ (2,247)
Reinsurance	(18,583)	1,848	(20,431)
Total	<u>\$ (22,037)</u>	<u>\$ 641</u>	<u>\$ (22,678)</u>

We recorded income tax (expense)/recovery of \$(22.0) million and \$0.6 million for the six months ended June 30, 2010 and 2009, respectively. The increase in taxes for the six months ended June 30, 2010 was due primarily to an increase in earnings of some of our companies operating in tax paying jurisdictions.

Share of Net Earnings of Partly Owned Company:

	Six Months Ended June 30,		
	2010	2009	Variance
	(in thousands of U.S. dollars)		
Consulting	\$ —	\$ —	\$ —
Reinsurance	9,353	269	9,084
Total	<u>\$9,353</u>	<u>\$269</u>	<u>\$ 9,084</u>

For the six months ended June 30, 2010, we recorded \$9.4 million of our share of net earnings of partly owned company as compared to \$0.3 million for the six months ended June 30, 2009. The \$9.4 million was our share of the earnings of SAC which related primarily to SAC's sale of its interest in Stonewall Insurance Company (discussed above in "— Recent Transactions").

Noncontrolling Interest:

	Six Months Ended June 30,		
	2010	2009	Variance
	(in thousands of U.S. dollars)		
Consulting	\$ —	\$ —	\$ —
Reinsurance	(12,745)	(9,837)	(2,908)
Total	<u>\$ (12,745)</u>	<u>\$ (9,837)</u>	<u>\$ (2,908)</u>

We recorded noncontrolling interest in earnings of \$(12.7) million and \$(9.8) million for the six months ended June 30, 2010 and 2009, respectively. The costs associated with our noncontrolling interest is variable and wholly dependent on the results for the period of those subsidiaries for which there exists a noncontrolling interest.

Liquidity and Capital Resources

In April 2010, our wholly-owned subsidiary, Knapton Holdings, entered into a term facility agreement with a London-based bank. On April 20, 2010, Knapton Holdings drew down \$21.4 million from the Knapton Facility to

[Table of Contents](#)

partially fund the acquisition of Knapton. The interest rate on the Knapton Facility is LIBOR plus 2.75%. The Knapton Facility is repayable in three years and is secured by a first charge over Knapton Holding's shares in Knapton. The Knapton Facility contains various financial and business covenants, including limitations on mergers and consolidations involving Knapton Holdings and its subsidiaries. As of June 30, 2010, all of the financial covenants relating to the Knapton Facility were met.

On July 16, 2010, in advance of the closing of the PWAC acquisition, we entered into a term facility agreement with a London-based bank, or the Enstar Facility. On July 19, 2010, we drew down \$25.0 million from the Enstar Facility to fund the acquisition of PWAC. The interest rate on the Enstar Facility is LIBOR plus 2.75%. The Enstar Facility is repayable in three months and is unsecured. The Enstar Facility contains various financial and business covenants.

Other than the above, there have been no material changes to our liquidity position or capital resource requirements since December 31, 2009. For more information refer to "Management's Discussion and Analysis of Financial Condition and Results of Operations — Liquidity and Capital Resources" included in Item 7 of our Annual Report on Form 10-K for the year ended December 31, 2009.

With respect to the six month periods ended June 30, 2010 and 2009, net cash (used in) provided by our operating activities was \$(696.4) million and \$29.1 million, respectively. The decrease in cash flows was primarily attributable to:

- (i) an increase in the net purchase of trading securities of \$682.1 million resulting primarily from \$557.5 million in net purchases of trading securities during the three months ended June 30, 2010, and the acquisition of trading securities in the Knapton and Assuransinvest acquisitions and in connection with the completion of two new RITC transactions;
- (ii) an increase in the movement of total reinsurance balances receivable and reinsurance balances payable of \$62.6 million due primarily to the completion of the acquisitions and RITC transactions noted above; and
- (iii) an increase in the net movement of other assets and other liabilities of \$165.3 million related primarily to the completion of the acquisitions and RITC transactions noted above along with the completion of the 100% quota share reinsurance agreement with Allianz; partially offset by
- (iv) an increase in loss and loss adjustment expenses of \$230.7 million primarily due to the completion of the acquisitions and RITC transactions noted above along with the completion of the transfer from Mitsui of a portfolio of run-off business to Bosworth.

We changed our investment policy effective April 1, 2010, and as a result, we now classify all of our short-term investments as trading securities, including those we acquire in connection with our acquisitions. Due to the nature of our operating activities — managing insurance and reinsurance companies and portfolios of insurance and reinsurance in run-off — it is not unexpected to have significant swings in net cash provided by our operating activities.

Net cash provided by (used in) investing activities for the six month periods ended June 30, 2010 and 2009 was \$116.5 million and \$(312.2) million, respectively. The increase in net cash provided by investing activities was primarily due to the following:

- (i) an increase of \$148.7 million in net cash acquired on completed acquisitions;
- (ii) an increase of \$35.6 million in total net purchases and maturities of held-to-maturity securities;
- (iii) an increase of \$207.4 million of restricted cash due primarily to increased letter of credit funding requirements in relation to the Bosworth run-off business; and
- (iv) an increase of \$44.8 million in total net purchases, sales and maturities of available-for-sale securities.

Net cash provided by (used in) financing activities for the six month periods ended June 30, 2010 and 2009 was \$29.6 million and \$(74.5) million, respectively. The increase in net cash provided by financing activities was primarily due to an increase in net capital contributions received from noncontrolling interests of \$33.9 million and

[Table of Contents](#)

an increase in loan receipts, during 2010, of \$21.4 million relating to the Knapton Facility as compared to \$57.6 million of loan repayments during 2009.

Cautionary Statement Regarding Forward-Looking Statements

This quarterly report contains statements that constitute "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, with respect to our financial condition, results of operations, business strategies, operating efficiencies, competitive positions, growth opportunities, plans and objectives of our management, as well as the markets for our ordinary shares and the insurance and reinsurance sectors in general. Statements that include words such as "estimate," "project," "plan," "intend," "expect," "anticipate," "believe," "would," "should," "could," "seek," and similar statements of a future or forward-looking nature identify forward-looking statements for purposes of the federal securities laws or otherwise. All forward-looking statements are necessarily estimates or expectations, and not statements of historical fact, reflecting the best judgment of our management and involve a number of risks and uncertainties that could cause actual results to differ materially from those suggested by the forward-looking statements. These forward-looking statements should, therefore, be considered in light of various important factors, including those set forth in this quarterly report.

Factors that could cause actual results to differ materially from those suggested by the forward-looking statements include:

- risks associated with implementing our business strategies and initiatives;
- the adequacy of our loss reserves and the need to adjust such reserves as claims develop over time;
- risks relating to the availability and collectability of our reinsurance;
- risks that we may require additional capital in the future which may not be available or may be available only on unfavorable terms;
- changes and uncertainty in economic conditions, including interest rates, inflation, currency exchange rates, equity markets and credit conditions including current market conditions and the instability in the global credit markets, which could affect our investment portfolio, our ability to finance future acquisitions and our profitability;
- losses due to foreign currency exchange rate fluctuations;
- tax, regulatory or legal restrictions or limitations applicable to us or the insurance and reinsurance business generally;
- increased competitive pressures, including the consolidation and increased globalization of reinsurance providers;
- emerging claim and coverage issues;

[Table of Contents](#)

- lengthy and unpredictable litigation affecting assessment of losses and/or coverage issues;
- loss of key personnel;
- changes in our plans, strategies, objectives, expectations or intentions, which may happen at any time at management's discretion;
- operational risks, including system or human failures;
- the risk that ongoing or future industry regulatory developments will disrupt our business, or mandate changes in industry practices in ways that increase our costs, decrease our revenues or require us to alter aspects of the way we do business;
- changes in Bermuda law or regulation or the political stability of Bermuda;
- changes in tax laws or regulations applicable to us or our subsidiaries, or the risk that we or one of our non-U.S. subsidiaries become subject to significant, or significantly increased, income taxes in the United States or elsewhere; and
- changes in accounting policies or practices.

The factors listed above should be not construed as exhaustive and should be read in conjunction with the other cautionary statements and Risk Factors that are included in our Annual Report on Form 10-K for the year ended December 31, 2009 as well as in the other materials filed and to be filed with the U.S. Securities and Exchange Commission, or the SEC. We undertake no obligation to publicly update or review any forward looking statement, whether as a result of new information, future developments or otherwise.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

There have been no material changes in our market risk exposures since December 31, 2009. For more information refer to "Quantitative and Qualitative Disclosures about Market Risk" included in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2009.

Item 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management performed an evaluation, with the participation of our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of June 30, 2010. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective to ensure that information that we are required to disclose in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and is accumulated and communicated to management, including our principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls

Our management has performed an evaluation, with the participation of our Chief Executive Officer and our Chief Financial Officer, of changes in our internal control over financial reporting that occurred during the three months ended June 30, 2010. Based upon that evaluation there were no changes in our internal control over financial reporting that occurred during the three months ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

We are, from time to time, involved in various legal proceedings in the ordinary course of business, including litigation regarding claims. We do not believe that the resolution of any currently pending legal proceedings, either individually or taken as a whole, will have a material adverse effect on our business, results of operations or financial condition. Nevertheless, we cannot assure you that lawsuits, arbitrations or other litigation will not have a material adverse effect on our business, financial condition or results of operations. We anticipate that, similar to the rest of the insurance and reinsurance industry, we will continue to be subject to litigation and arbitration proceedings in the ordinary course of business, including litigation generally related to the scope of coverage with respect to asbestos and environmental claims. There can be no assurance that any such future litigation will not have a material adverse effect on our business, financial condition or results of operations.

In April 2008, we, Enstar US, Inc., or Enstar US, Dukes Place Limited and certain affiliates of Dukes Place, or, collectively, Dukes Place, were named as defendants in a lawsuit filed in the United States District Court for the Southern District of New York by National Indemnity Company, or NICO, an indirect subsidiary of Berkshire Hathaway, Inc. The complaint alleged, among other things, that Dukes Place, we and Enstar US: (i) interfered with the rights of NICO as reinsurer under reinsurance agreements entered into between NICO and each of Stonewall and Seaton, two Rhode Island domiciled insurers that are indirect subsidiaries of Dukes Place, and (ii) breached certain duties owed to NICO under management agreements between Enstar US and each of Stonewall and Seaton. The suit was filed shortly after Virginia Holdings Ltd., our indirect subsidiary, or Virginia, completed a hearing before the Rhode Island Department of Business Regulation as part of Virginia's application to buy a 44.4% interest in the insurers from Dukes Place. Virginia completed that acquisition on June 13, 2008. The suit did not seek a stated amount of damages. In a letter dated July 1, 2009, the parties requested a stay of the proceedings, which was granted by the Court by Order dated August 26, 2009. On April 7, 2010, Stonewall Acquisition Corporation, a corporation in which we own a 44.4% interest, closed a transaction in which it sold all of the shares of Stonewall Insurance Company to Columbia Insurance Company, an affiliate of NICO for a purchase price of \$56.0 million (subject to certain post-closing purchase price adjustments). In connection with this transaction, we, Enstar US, Dukes Place, and NICO entered into a Mutual Release Agreement, dated as of April 7, 2010, pursuant to which the parties (i) dismissed the claims and counterclaims against one another in connection with the above-referenced litigation, and (ii) released and discharged each other from any and all liabilities arising out of, or relating to, the above-referenced litigation.

Item 1A. RISK FACTORS

Our results of operations and financial condition are subject to numerous risks and uncertainties described in "Risk Factors" included in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2009. The risk factors identified therein have not materially changed.
